

Registration Waivers

We received a total of 6 requests for registration waivers – 5 from faculty or staff and 1 from a graduate student. In order to encourage participation in ABLE, the committee recommended that all of the waivers be funded. The committee suggested that future applications include a statement by requestors about the availability of funds from their respective departments, colleges, or universities. Electronic submission was effective, although some people had problems with the Adobe forms. Perhaps a Word form would be better.

Lab initiative grants

We received 1 lab initiative grant proposal. The proposal will be considered prior to the board meeting and the decision will be announced at the board meeting.
