

Board Report for 2008 ABLE Conference
Poster Session
Tom Fogle, Organizer

The ABLE Poster session, now in its sixth year, has become an established venue for the presentation of laboratory teaching in biology. This year the application process was significantly updated. In conjunction with Mark Walvoord, Chair of the ABLE Web site Committee, we instituted direct submission to the web page for the poster session applications. This greatly eased the submission process for ABLE members. Web submissions were automatically routed to the Poster Session Organizer's email. The deadline for poster submission for the current year was March 17, 2008. Fourteen posters were submitted and 13 were accepted. Poster abstracts were formatted for publication in the workshop binder and submitted electronically to the conference chair, Anne Cordon

There were 21 posters displayed in the T. H. Morgan Building at the 2007 conference held at the University of Kentucky. Twenty posters were submitted; one presenter did not show. Two posters were added by the host institution at the time of the conference.
