

# ABLE History: Past, Present, and Future

Susan Karcher<sup>1</sup> and Anna Wilson

<sup>1</sup>Department of Biological Sciences, and Department of Biochemistry, Purdue University, West Lafayette IN 47907 USA

([karcher@purdue.edu](mailto:karcher@purdue.edu); [annawilson40@gmail.com](mailto:annawilson40@gmail.com))

View some materials - photos, *Labstracts*, and more - from ABLE's past. ABLE's archivists, Susan Karcher and Anna Wilson, present some of ABLE's history. We also seek suggestions for how to make this historical information readily available to all ABLE members.

---

## Mission, Review Process & Disclaimer

The Association for Biology Laboratory Education (ABLE) was founded in 1979 to promote information exchange among university and college educators actively concerned with biology learning and teaching in a laboratory setting. The focus of ABLE is to improve the undergraduate biology laboratory experience by promoting the development and dissemination of interesting, innovative, and reliable laboratory exercises. For more information about ABLE, please visit <http://www.ableweb.org/>

Papers published in *Tested Studies for Laboratory Teaching: Proceedings of the Conference of the Association for Biology Laboratory Education* are evaluated and selected by a committee prior to presentation at the conference, peer-reviewed by participants at the conference, and edited by members of the ABLE Editorial Board.
